Changes made to your design based on feedback from the TA and the cognitive walkthroughs

Overall

- Added 'Account Details' under the Account button to make it more clear what the button does
- Changed button colours. Red for cancelling/logout, green for confirmation/money, and blue for everything else
- Added app name to homepage
- Added a current location icon on the Main Page

Task 1

- Confirm button for funds
- Changed Funds to Add Funds for clarification
- Added indication on which payment type was selected

Task 2

- Sign up page should have a cancel button
- Added feedback for confirmation of account creation

Task 3

- Be able to reserve more than one bike at a time and set a time and date for the reservation
- Add cost of reservation.
- Add confirmation that reservation was successful
